<https://Network180.org> | info@network180.org

What is the Autism Benefit?

It is a benefit to provide intensive Applied Behavioral Analysis (ABA) Interventions for individuals under 21 years of age with the diagnosis of an Autism Spectrum Disorder.

Who is eligible through Network180?

- Medicaid (including HMO/QHP's/Healthy Michigan) and Mi Child
- Individuals under 21 years of age
- Kent County Resident

Exclusion: uninsured/commercial insurance only

Some potential signs of Autism Spectrum may include:

- Limited social interaction and/or communication
- Flapping of the hands
- Rocking of the body
- Sensory sensitivities
- Repetitive behaviors both physical and verbal
- Avoiding eye contact
- Doesn't respond to name

This is not a complete list or for the purpose of diagnosing and not all autistic individuals display all of these behaviors.

Diagnostic Process:

The official diagnosis of Autism Spectrum Disorder has to be confirmed by psychological testing. Network180 will refer to a provider to complete diagnostic testing for this purpose.

What happens after the testing?

Network180 will receive a copy of the testing report and will contact the family to discuss next steps. If Applied Behavioral Analysis Therapy is recommended, Network180 will support with the referral.

Freedom of Abuse and Neglect:

I understand it is the right of myself and my family to be free from abuse and neglect. Should any person(s) in our family experience abuse or neglect or should we witness abuse or neglect, we can call Children's Protective Services at (855) 444-3911 at any time.

The Referral Process:

A family can call Network180 to request a screening for autism or a referral can come from a school, primary care doctor, or any other source if there is a concern.

Call the Network180 Access Center: 616.336.3909, ask for the Children's I/DD intake team or Autism Services.

Network180 will coordinate an Autism Spectrum Disorder screening to begin the process.

Network180 choice of Testing Providers for Autism Benefit (referrals are made through Network180)
